

§ 3430.34 Evaluation criteria.

(a) *General.* To ensure any project receiving funds from CSREES is consistent with the broad goals of the funding program, the content of each proposal/application submitted to CSREES will be evaluated based on a pre-determined set of review criteria. It is the responsibility of the Program Officer to develop, adopt, adapt, or otherwise establish the criteria by which proposals are to be evaluated. It may be appropriate for the Program Officer to involve other scientists or stakeholders in the development of criteria, or to extract criteria from legislative authority or appropriations language. The review criteria are described in the RFA and shall not include criteria concerning any cost sharing or matching requirements per section 103(a)(3) of AREERA (7 U.S.C. 7613(a)(3)).

(b) *Guidance for reviewers.* In order that all potential applicants for a program have similar opportunities to compete for funds, all reviewers will receive from the Program Officer a description of the review criteria. Reviewers are instructed to use those same evaluation criteria, and only those criteria, to judge the merit of the proposals they review.

§ 3430.35 Review of noncompetitive applications.

(a) *General.* Some projects are directed by either authorizing legislation and/or appropriations to specifically support a designated institution or set of institutions for particular research, education, or extension topics of importance to the nation, a State, or a region. Although these projects may be awarded noncompetitively, these projects or activities are subject to the same application process, award terms and conditions, Federal assistance laws and regulations, reporting and monitoring requirements, and post-award administration and closeout policies and procedures as competitive Federal assistance programs. The only difference is these applications are not subject to a competitive peer or merit review process at the Agency level.

(b) *Requirements.* All noncompetitive applications recommended for funding are required to be reviewed by the program officer and, as required, other De-

partmental and CSREES officials; and the review documented by the CSREES program officer. For awards recommended for funding at or greater than \$10,000, an independent review and a unit review by program officials are required.

§ 3430.36 Procedures to minimize or eliminate duplication of effort.

CSREES may implement appropriate business processes to minimize or eliminate the awarding of CSREES Federal assistance that unnecessarily duplicates activities already being sponsored under other awards, including awards made by other Federal agencies. Business processes may include the review of the Current and Pending Support Form; documented CRIS searches prior to award; the conduct of PD workshops, conferences, meetings, and symposia; and agency participation in Federal Government-wide and other committees, taskforces, or groups that seek to solve problems related to agricultural research, education, and extension and other activities delegated to the CSREES Administrator.

§ 3430.37 Feedback to applicants.

Copies of individual reviews and/or summary reviews, not including the identity of reviewers, will be sent to the applicant PDs after the review process has been completed.

Subpart D—Award**§ 3430.41 Administration.**

(a) *General.* Within the limit of funds available for such purpose, the CSREES ADO shall make Federal assistance awards to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. The date specified by the CSREES ADO as the effective date of the award shall be no later than September 30th of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the award effective date, but as soon thereafter as practical so that project goals may be attained
